## SKILLS

- **Languages:** Python, Java, C, PHP
- **Frameworks:** HTML, CSS, Tailwind CSS, NodeJS, React
- **Tools/Platforms:** MySQL, MongoDB, Firebase, Android Studio
- **Soft Skills:** Problem-Solving, Adaptability, Teamwork

## PROJECTS

- **Building Materials Supply E-commerce Website | [GitHub](#)** October 2025 - Present
  - Developed a full-stack e-commerce platform for buying and selling construction materials such as bricks, sand, cement, iron, and paints with dedicated portals for buyers, sellers, and administrators
  - Built using React, Node.js, Express, and MongoDB, including user authentication, seller product uploads, order management, admin controls, and real-time inventory updates
  - Enhanced the material procurement process by enabling easy product comparison, faster ordering, and centralized management for sellers and administrators, which resulted in reduced manual coordination and increased efficiency
  - Tech: React, Node.js, Express.js, MongoDB, REST APIs, Tailwind
- **Medicare Assistant Website | [GitHub](#)** October 2025 - Present
  - Implemented a healthcare assistant application to manage appointment bookings and provide emergency alert services
  - Used React.js for a modern, responsive UI and Node.js + Express.js for secure backend service handling
  - Integrated MongoDB, real-time notifications, and smooth data processing
  - Tech: React.js, Node.js, Express.js, Firebase, MongoDB
- **Attendance & Rewards App | [GitHub](#)** July 2025 - August 2025
  - Designed an Android application to digitize attendance tracking and introduced a systematic student rewards system
  - Utilized Android Studio with Firebase Authentication for secure user verification, Firebase Realtime Database for persistent data handling, and APIs to support smooth data exchange
  - Strengthened the accuracy of attendance management, minimized manual intervention, and increased efficiency in reward point processing.
  - Tech: Android Studio, Kotlin, Java, Firebase

## SUMMER TRAINING

- **Lovely Professional University** June 2025 - July 2025
  - *Android Developer Intern*
  - Gained practical experience in Android development using Java and Kotlin.
  - Designed intuitive and user-friendly mobile UI/UX layouts.
  - Utilized Firebase for authentication, real-time database, and cloud storage.
  - Technologies Used: Android Studio, Kotlin, Java, Firebase

## CERTIFICATES

- Foundations of User Experience Design | Coursera | [Certificate](#) February 2025
- The Bits and Bytes of Computer Networking | Coursera | [Certificate](#) September 2024
- Web Development with React.js and JavaScript | Dev Town | [Certificate](#) November 2023

## ACHIEVEMENTS

- **Secured a place in Round 2 of the Byte-Bash Hackathon** January 2025
  - Among 2,000+ participants

## EDUCATION

- **Lovely Professional University** Punjab, India
  - *Bachelor of Technology - Computer Science and Engineering; CGPA: 5.46* Since August 2023
- **Sri Sarada Educational Institutions** Vijayawada, AP
  - *Intermediate; Percentage: 75%* April 2020 - March 2022
- **SRI B.V. Subba Reddy High School** Vijayawada, AP
  - *Matriculation; Percentage: 98%* April 2017 - March 2020
